

Part # 07370

Kawasaki ZX10R Hugger

Fitting Instructions

This kit contains:

- 1x GRP/Carbon Hugger
- 1x GRP Shock Protector
- 5x M6x20mm Button head Bolts – CBOLM60009
- 1x M5x20mm Button head Bolt – CBOLM50009

1. Remove the original hugger and chain guards (it may be necessary to remove the rear wheel for access to the bolt on the inside of the swing arm).
2. Locate the shock protector over the 2 foremost mounting points with the protector pointing downward between the rear tire and swing arm.
3. Place the hugger over the shock protector and bolt through both items using 2 M6 bolts.
4. Use the remaining bolts to fasten the hugger down (1 M5 inside right, 1 M6 front left and 2 M6 rear left).
