CUSTOM MOTORCYCLE ACCESSORIES

NEW RAGE CYCLES

3. Remove 2 plastic side pods (photo 3).
4. Slide provided bolts up through the turn signal plate and through frame holes (photo 4).
5. Use provided hardware (washer / nut), but keep unit loose (photo 5).
6. Clean the surface area well with denatured alcohol or something comparable to prepare for double sided tape. Remove the tape backing (photo 6).
7. Slide turn signal bracket up into place and tighten 2 bolts (photo 7).
8. Plug 3 factory connectors back together.
9. Reinstall side pods and seat (photo 8).
