CUSTOM MOTORCYCLE ACCESSORIES

NEW RAGE CYCLES

If installing New Rage Cycles Rear Turn Signals:

1. Remove seat from bike
2. Remove stock fender and side mounted license plate bracket
3. Remove wiring harness cover along swing arm (picture 1)
4. Remove turn signal wires from harness and re-route underneath seat
5. Cut plugs off removed stock turn signals
6. Connect onto the ends of our LED turn signals (picture 2)
7. To disassemble brake lights, remove 2 allen bolts on top of seat (picture 3), and 2 allen bolts underneath brake light bracket (picture 4)
8. Remove double-sided tape, and adhere to bottom lip of each brake light (picture 5)
9. Run wires to relocated wiring harness, and plug in
10. Test your turn signals before reinstalling brake lights
11. Reinstall brake lights with stock bolts and ride safe!
